

2002 Westa Dry Recyclable Materials MRF Equipment List

Item	Description	Size (All Sizes Approximate)	Details
Primary Feed Conveyor	Chain driven infloor rubber belt conveyor	1600mm between Valances 7m In floor 3m Shaft Centre	
Transition Conveyor to ballistic separator	Rubber belt friction drive conveyor	1450mm between valances Circa 10m long	Chevron belt
Stadler ballistic separator	2D 3D separator	2200 wide 4000 long paddles	Model BS2150-11-01-037
Discharge Conveyor 2D	2D fraction discharge conveyor from ballistic separator wide friction drive rubber belt	1250mm wide circa 4m long	
Discharge Conveyor 3D	3D fraction discharge conveyor from ballistic separator friction drive rubber belt	900mm wide circa 4m long	
Incline Conveyor	Feeding 2D to picking line friction drive rubber belt	1200mm wide circa 10m long	
Incline Conveyor	Feeding 3D to picking line friction drive rubber belt	900mm wide circa 10m long	
Picking belt	2D Line 14 picking stations	1250mm wide circa 24m long	
Picking belt	3 D line 10 picking stations	900mm wide circa 20m long	
Overband	Overband magnet in cage		Steinart
Picking Station	Steel frame Steel Dividing Walls Wooden floor	8 push through bays	

HIGGINS BALERS LTD

RENEWING, REPAIRING, REPLACING

Item	Description	Size	Details
Baler Feed Conveyor	Swan neck Chain drive Rubber belt	1350mm belt 1600mm between valances 25m in floor	
Baler	Fully automatic baler	45kW Main Motor Stamper Vertical Wiring x 5 Horizontal wiring x 2 17,000 Hrs	Paal Konti 275
